

KEERTIKUMAR H K

Full Stack Developer · Python Engineer · AI-Integrated Applications

+91-7676256071 · keertikumar543@gmail.com · [LinkedIn](#) · [GitHub](#) · [LeetCode](#) · Bengaluru, Karnataka

EDUCATION

B.Tech – CS & Engineering

Visvesvaraya Technological University (VTU), Belagavi

2022 – 2026

CGPA 8.47 / 10

DSA · DBMS · OS · OOP · Network Security · AI · Web Dev

SKILLS

Languages

Python · JavaScript · TypeScript · HTML5 · CSS3 · Dart · SQL

Frontend

React.js · Next.js · Redux · TensorFlow.js · MediaPipe · Web Speech API

Backend

Node.js · FastAPI · Express.js · REST APIs · Socket.io

Databases

PostgreSQL · MongoDB · SQLite · Firebase · Prisma ORM

AI & Integration

OpenAI API · Prompt Engineering · Computer Vision

Tools

Git · GitHub · Vercel · VS Code · Linux · Android Studio · IntelliJ

CERTIFICATIONS

Full Stack Development

SphereNeX — Startup India 15-Week

Python

Udemy · UC-95de528a-6858

Web Development Bootcamp

Udemy

Git & GitHub

Udemy

SQL for Beginners

Udemy

EXTRACURRICULAR

Hackathon Participant

NIT Surathkal · Sept 2024

- 5-member team; led Flutter front-end & integrated backend APIs.

PROFESSIONAL SUMMARY

Final-year B.Tech CSE student (CGPA 8.47) and results-driven Full Stack Developer with proven expertise in scalable, AI-powered web applications using React, Node.js, Python, and FastAPI. Completed a 15-week internship at SphereNeX (Startup India recognised) and independently shipped a live collaborative code editor with 100+ tested sessions. Experienced in OpenAI API integration, computer vision pipelines, and WebSocket-based real-time systems. Passionate about building production-ready software that delivers real impact.

INTERNSHIP EXPERIENCE

Full Stack Development Intern

Feb 2026 – May 2026

SphereNeX ★ Startup India Recognised

- Engineered and delivered production full-stack features over a 15-week programme using React, Node.js, and relational databases in an agile team environment.
- Designed RESTful APIs and responsive UI components that streamlined front-end to back-end data flow, reducing manual workflow overhead.
- Formally recognised by the Founder & CEO and Head of Internship as diligent, hardworking, and committed throughout the programme.

PROJECTS

Realtime Code Editor

React · Node.js · Socket.io · Monaco Editor [GitHub ↗](#) [Live Demo ↗](#)

- Production-deployed collaborative editor enabling simultaneous multi-developer coding via WebSocket synchronisation; 100+ concurrent sessions tested.
- Monaco Editor delivers VS Code-like syntax highlighting and auto-complete in-browser; sub-100ms latency achieved with Socket.io on Vercel.

AI Fitness Coach

React · Python · FastAPI · OpenAI API

- AI coaching platform generating personalised workout and diet plans via GPT models from user goals and biometric input; FastAPI backend handles prompt engineering and OpenAI orchestration.
- Goal-tracking React dashboard enables users to review, adjust, and monitor AI-generated plans over time.

YogaAlign

React · TensorFlow.js · MediaPipe · Node.js

- Real-time yoga pose detection running full computer vision inference client-side via MediaPipe Pose and TensorFlow.js, eliminating backend round-trip latency.
- Live alignment feedback enables posture self-correction; Node.js backend persists pose history for longitudinal progress analysis.

Voice Bot Assistant

React · Web Speech API · OpenAI API · Node.js

- AI voice assistant with Web Speech API for real-time speech-to-text and OpenAI API for context-aware multi-turn responses; streaming delivery and session memory on Node.js backend.

- Delivered polished demo to judges under tight hackathon constraints.

Next To-Do List

Next.js · TypeScript · Prisma · PostgreSQL

- Smart task manager with AI-powered priority suggestions; Prisma ORM with PostgreSQL for type-safe, schema-driven data access; TypeScript enforced throughout.
